THE BOOK OF ISAIAH

An in depth reflection on the book of Isaiah

Two days spent immersed in the book of Isaiah – a key book which is a vital resource for church leaders and others involved in the key issues of the Church and it's mission.

Isaiah is one of the most important Old Testament books for us to understand. It is quoted in the New Testament far more than any other Old Testament prophetic book. It is loaded with multiple prophetic themes which shape our thinking about the Messianic identity of Jesus, the destiny of Israel, the Kingdom of God, the mission of the church and the end-times.

We will seek to understand the original context of it's writing, it's authorship and it's key themes. We will also discuss how to understand and interpret Old Testament prophecy in the light of how the New Testament uses the prophecies of Isaiah.

This is a great opportunity to take time out to reflect on Scripture, to learn together, to sharpen our understanding and to be edified by one of the most magnificent books of the Bible.

Speaker: Martin Charlesworth
